2 Backup Hooks (shoot both, same rest-of-script follows)

Hook B — Bride emotion hook: "Oka bride ki thana wedding roje kavalsindi okkate — thana prathi emotion, thana family prathi navvu, aa roje andhari phone lalo undali ani. Adhe memu chestam!"

Hook C — Relatives hook: "Mee wedding ki raledu ani relatives badha paduthunnara? Vallu kuda mee wedding ni, aa roje, live ga chusinattu chudochu — ReelsZen wedding reel tho!"

What makes this version DIFFERENT from Version 1

- Version 1 = all events (birthdays, brands, small events also). This one = weddings ONLY.
- No ₹1,999 event price here — weddings are premium, don't mix a cheap price into a wedding reel.
- Selling emotion + family + relatives, not speed alone. Speed is the proof, emotion is the reason.
- Audience for this reel: brides, grooms, and their parents — speak softly and warmly, not salesy.

Shooting Checklist — Wedding Version

- Shoot at a real wedding venue / mandapam / decorated hall — never a plain room.
- Her look: premium festive (saree / half-saree / elegant ethnic) — she should look like she belongs at a wedding, not in an ad.
- Tone: soft, warm, smiling — 20% slower than Version 1. This reel sells trust to families, not excitement to youngsters.
- Hold iPhone + gimbal in the opening lines.
- B-roll is compulsory for EVERY ritual she names — if no clip exists for a ritual, remove that ritual's name from the script.
- Burn captions for every line: max 2 lines, bold, highlight only these in gold: SAME DAY, ₹14,999, DATE.
- Total length: under 50 seconds. Cut all pauses.
- Only ONE call-to-action: DM 'DATE' — same keyword as Version 1, so both reels build one campaign.
- Post between 6–9 PM (when families sit together and wedding planning happens), tag the venue if shot at one, and pin the DATE comment immediately.
